Eastern District Office

Re: Order Requiring Installation of Measuring Devices

Dear Mr. Larson:

Enclosed is a Department order which denies your petition submitted on behalf of Tracey Baxter to extend the time in which to install measuring devices on the Sorensen and Lloyd Ditches. The order provides for immediate watermaster control over the two diversions. The watermaster may close the headgates of these diversions until they are fitted with adequate measuring devices. The Director and Department considered your order but felt that the request could not be granted given the critical low flows of the Bear River.

Questions regarding the order and/or the installation of the measuring devices may be directed at either this office or our office in Idaho Falls.

Sincerely,

Tim Luke
Hydrologist in Training
Water Allocations
